**Position: Intern, Austen BioInnovation Institute in Akron**

**Overview**

The Austen BioInnovation Institute in Akron (ABIA) – an exceptional collaboration of Akron Children’s Hospital, Akron General Health System, Northeastern Ohio Universities Colleges of Medicine and Pharmacy (NEOUCOM), Summa Health System, The University of Akron and The John S. and James L. Knight Foundation – is focused on patient-centered innovation and commercialization at the intersection of biomaterials and medicine. The strategic alignment of public and private support, accompanied with Akron’s rich legacy in industrial and materials science, is working to pioneer the next generation of life-enhancing and life-saving innovation that will transform Akron and the surrounding region into a model for biomedical discovery and enterprise. Additionally, the Institute is moving Akron toward a secure economic future by accelerating the creation of 2,400 jobs within the next decade, and is a critical element of the City of Akron’s Biomedical Corridor. To learn more about the ABIA, please visit [www.abiakron.org](http://www.abiakron.org).

**Position Description**

Assist clinical and community-based biomedical researchers in the planning and conduct of medical practice, clinical, and community research. May perform a variety of routine and special research duties, such as: publication activities, survey and intake form design and development, descriptive analyses, literature searches and reviews, research presentations, data collection, preparation of research presentations and manuscripts, and/or data input and management.

**Qualifications Desired**

- Minimum of 15 hours a week required while school in session; full time over the summer.
- Demonstrated analytic ability, knowledge of research study design and management, and research compliance issues. Requires demonstrated good communication, problem solving, and management skills
- Experience in community-based research, clinical research, public health research or a related field preferred
- Excellent computer skills including MS Office, databases, graphics for presentations and publications, Powerpoint and Adobe Acrobat
- Professional Graduate level candidates preferred
- Team player, high energy multi-tasker, problem solver
- Ability to manage time effectively
- Shows initiative, flexibility and creativity
- Maintains a mature, professional, competent and friendly demeanor
- Motivated and committed to diversity
